

Ćw. 7. Creating web pages. Introduction to HTML

Task 1. Take the html course on the page below, or find another course:

-  <http://webmaster.helion.pl/>
-  <http://www.w3schools.com/html/> (English)
- 
- 

Task 2. Take and install the free html editor

Zad.3 Open a blank document in your html editor and enter the following framework of document:

```
<html>
<head>
<title>Tomkek stefaniuk's webpage</title>
<meta charset=UTF-8" />
</head>
<body>
Hello, my name is ..... and this is my webpage
</body>
</html>
```

-  Save the created file in “my documents” folder - File name: index.html
-  Open created document in your web browser.

Task.4 Using HTML course define in the **head the following elements:**

- 🌐 English coding standard
- 🌐 About the Author
- 🌐 Description (this page is exercise. It is used to acquire skill in HTML language)
- 🌐 Keywords (HTLM Name Surname, exercise, communication website)
- 🌐 Document language
- 🌐 Auto-redirect to the <http://www.tstefaniuk.uph.edu.pl> after 5 seconds

🌐 **Task.5. Using HTML course define in the **body** the following elements:**

- 🌐 Background color: # ddc1ff
- 🌐 background color: silver
- 🌐 Set as Background image previously copied to a folder photo
- 🌐 The left and top margin: 50

Task.6 Using HTML course define in the **body the following elements:**

- 🌐 The header type 1 (centered): Welcome to my page
- 🌐 The header type 2 (aligned to the right): My name is Your Name
- 🌐 The new paragraph <p> (with justified), type the following text:

This is my first page of the Internet and I am sooooo proud of it
